interxion™

Fact sheet

PARIS (PAR7)

LOCATION
1-3 rue Rateau, 93120 La Courneuve

An ideal home for your applications infrastructure

Our PAR7 data centre provides the latest secure, scalable infrastructure for mission-critical IT systems, with a wide range of connectivity solutions.

Located in front of the A86 highway "La Courneuve centre" exit, this data centre offers 2N+1 UPS power and N+1 cooling, as well as the most advanced alarm and monitoring systems. PAR7 supports the latest high-density power configurations and has been designed using Interxion's energy efficient modular architecture, with free cooling and maximum efficiency components as standard.

At a glance

- 9,200 m² of maximum equipable space
- Security staff on site 24x7, 365
- 32 MW and in excess of 2 kW/m² redundant grid connection
- Direct access to more than 80 connectivity providers
- Advanced fire detection and suppression systems
- 2011 ASHRAE-standard temperature and humidity SLAs

Facility

- 9,200 m² of maximum equipable space
- Located in front of the A86 highway "La Courneuve centre" exit
- Two minutes' walk from the tramway T1
- 2N redundant design architecture allowing maintenance operations with no service interruption

Interconnection

- Dual-entry fibre into the building
- Access to more than 80 connectivity providers
- Direct access to PARIX, SFINX and France-IX Internet exchanges
- Connection to Interxion France dark fibre network
- Access to IP single homing or multi-homing on demand

About Interxion

Interxion (NYSE: INXN) is a leading provider of carrier and cloud-neutral colocation data centre services in Europe, serving a wide range of customers through over 50 data centres in 11 European countries. Interxion's uniformly designed, energy efficient data centres offer customers extensive security and uptime for their mission-critical applications. With over 700 connectivity providers, 21 European Internet exchanges, and most leading cloud and digital media platforms across its footprint, Interxion has created connectivity, cloud, content and finance hubs that foster growing customer communities of interest.

Power

- 32 MW and in excess of 2kW/m^2 redundant grid supply, enabling high density power configurations
- Up to 99.999% availability SLA
- 2N+1 UPS redundancy
- N+1 backup generators, supporting 72 hours autonomy at full capacity
- Full range of AC and DC output currents

Security

- Security staff on site with controlled access 24x7, 365
- Multiple physical security layers including CCTV, proximity cards, man traps and biometrics
- ISO 27001/IEC-certified information security management systems

Controlled Environment

- Very Early Smoke Detection Apparatus (VESDA) in 2N configuration
- Optical detectors every 9m^2 in the room and in the technical floor
- Inert gas fire suppression system
- SLAs on temperature and humidity in line with the 2011 ASHRAE recommendations
- Minimum N+1 CRAC redundancy per customer room
- Entire facility infrastructure monitored 24x7, 365 in real-time (chillers, CRAC units, fire panels, generators, UPS in 2N+1 configuration)

Services

- Cabinets, private and shared area Cages and Private Rooms
- Remote Hands & Eyes : 24x7, 365
- Full range of interconnectivity
- Cloud Connect: enables private connections to multiple cloud providers
- Extendable to over 50 data centres across Europe via a single service contract

Energy Efficiency

- Guarantee of Origin certificates: 100% of power consumption produced from renewable resources
- Phased modular architecture optimizes Power Usage Effectiveness (PUE)
- Operated beyond the industry standards for energy-efficiency
- Chillers with free cooling
- Installation of Cabinets in cold aisle containment

Customer Support

- ISO 22301Certification - standard for Business Continuity Management.
- ISO 27001/IEC-accredited European Customer Service Centre (ECSC) provides support in 11 countries according to the same rigorous standards
- 24x7, 365 facility and service monitoring in real-time
- Multi-lingual response (French, English, Spanish, German)

Local accreditations

- ISO 14001:2004-accredited for environmental management for all our data centres in France and our Paris headquarters
- OHSAS 18001-certified for our health and safety operations in France
- PCI-DSS-certified for data security at all of our data centres in France
- Personal health data housing for all of our data centres in the Paris region
- ISO 5001:2011 certification for our energy management system
- PAR7 is compliant with the Code of Conduct implemented by the European Commission to support energy efficiency
