INTERXION AMS10

AMSTERDAM SCHIPHOL CAMPUS

LOCATION
Pudongweg 25, 1437 EM Rozenburg

Amsterdam's leading interconnection hub

AMS10 is our latest and greatest data centre in The Netherlands. Located on the Amsterdam Schiphol Campus, one of the busiest data centre hubs of Europe. With over 50 carriers and ISPs available for private peering via a Cross-Connect. Our data centres provide our customers with state-of-the-art interconnectivity, cooling, security, and power. With more than 9 data centres in Amsterdam, we can connect with over 250 carriers and ISPs. Our data centres are connected to the leading internet exchanges AMS-IX, NL-IX, and NDIX.

AMS10 is located just outside of the Amsterdam city centre. The Interxion Amsterdam Schiphol Campus offers a redundant infrastructure that meets the highest requirements in terms of connectivity, reliability, and performance. Our Schiphol Campus meets the highest standards within the industry, with redundant power supply and cooling to support the most demanding high-density configurations.

Metro Connect

Interxion has connected its data centers with MetroConnect on the Amsterdam Schiphol Campus with an ultra-fast, 100 Gbit/s connection to its data center on the Amsterdam Science Park.

At a glance

- 14.400m² of newly built data centre capacity in AMS10

- Located right next to our AMS8 data centre

- Located in Interxion's Amsterdam Schiphol Campus with four other Interxion data centres: AMS3, AMS5, AMS7 and AMS8.

- Private peering with over 50 carriers and ISPs

- Direct access to 3 Internet Exchanges: AMS-IX, NL-ix and NDIX

- 100% renewable energy is used in our data centres

About Interxion

Interxion (NYSE: INXN) is a leading provider of carrier and cloud-neutral colocation data centre services in Europe, serving a wide range of customers through over 50 data centres in 11 European countries. Interxion's uniformly designed, energy efficient data centres offer customers extensive security and uptime for their mission-critical applications. With 700+ connectivity providers, 21 European Internet exchanges, and most leading cloud and digital media platforms across its footprint, Interxion has created connectivity, cloud, content and finance hubs that foster growing customer communities of interest.

Data Centre

- 14.400m^2 equipped space with 26 Megawatt of IT power
- Redundant set up of fault-tolerant infrastructure
- Trained technical staff on campus
- 24/7 technical support available

Customer Support

- European Customer Support Centre (ECSC) provides multilingual support in 11 countries 24/7
- Customer operations follow rigorous standards, based on the ITIL framework

Power

- N+1 generator backup with minimum 24 hours of fuel stored on site, with SLA on on-time refueling
- Redundant UPS Power configuration
- SLA's up to 99.999% availability on power and cooling
- Full range of AC and DC output currents available

Controlled Environment

- 2N Advanced aspirating smoke detection systems (VESDA)
- Inergen gas fire suppression system
- N+2 CRAC units in the customer rooms
- State-of-the-art monitoring systems that monitor and alert all critical infrastructure (Chillers, CRAC's, Fire Panels, Generators, UPS etc.)

Security

- Trained security staff on-site 24/7
- Multiple physical security layers, protected with proximity cards and CCTV systems.
- Biometric security measures

Services

- Colocation: Cabinets, private and shared Cages
- Flexible cold aisle containment solutions, suiting all rack types and allow for flexible growth
- Hands and Eyes: 24/7 support for customer installation and intervention activities
- Storage space and unpacking/ staging area available
- Meeting rooms and office space available
- On site parking and free car charging available

Sustainability

- 100% of purchased energy is from renewable sources
- Optimized power usage effectiveness (PUE) and energy efficient cooling systems
- Data centres operated to the highest energy efficiency standards
- Sustainable ATES (Aquifer Thermal Energy Storage) cooling system

Interconnection

- Dual-entry, redundant fibre paths into the building
- Redundant patch panels in each equipped room
- 100 Gigabit Metro Connect between Interxion Science Park and Schiphol campus
- SLA-based Cross Connects to provide connections to any connectivity provider
- State-of-the-art Meet-Me Rooms (MMR)
- Cloud Connect available that enables customers to connect with multiple cloudproviders through a private connection

Certifications and compliances

- ISO 27001 Information Security Management certified
- ISO 22301 Business Continuity Management certified
- SOC2 Type 2 reporting
- Internal and External financial and accounting audits
- PCI DSS: Payment Card industry Data Secuity Standards
