

West Drayton London

About

Digital Realty's West Drayton site is ideally positioned as a West London data centre hub. It provides approximately 4,000m² (43,055ft²) of customer space over two floors. As well as being an ideal location for international enterprise and IT service companies, it is also complementary facility to our Digital Docklands and city data centres for those customers looking a dual or resilient colocation strategy. From a connectivity perspective it is an extremely well connected site with multiple network providers and internet exchanges within the building.
