Press Release, 2 August 2017

Net finance expense for the second quarter of 2017 was €10.9 million, a 7% increase over the second quarter of 2016 and an 6% increase over the first quarter of 2017.

Comparisons to prior periods are impacted by the issuance of €150.0 million of additional 6.00% senior secured notes due 2020 in April 2016 and drawings under our €75.0 million senior secured revolving facility that we entered into in March 2017.

Income tax expense for the second quarter of 2017 was €3.7 million, an 11% decrease compared with the second quarter of 2016 and a 13% increase from the first quarter of 2017.

Net income was €10.3 million in the second quarter of 2017, a 13% increase over the second quarter of 2016 and a 4% decrease from the first quarter of 2017.

Adjusted net income was €10.1 million in the second quarter of 2017, a 12% increase over the second quarter of 2016 and a 6% decrease from the first quarter of 2017.

Adjusted EBITDA for the second quarter of 2017 was €54.3 million, a 15% increase over the second quarter of 2016 and a 6% increase over the first quarter of 2017.

Adjusted EBITDA margin was 45.0% in the second quarter of 2017, compared with 45.5% in the second quarter of 2016 and 45.1% in the first quarter of 2017.

Cash generated from operations, defined as cash generated from operating activities before interest and corporate income tax payments and receipts, was €40.6 million in the second quarter of 2017, compared with €39.3 million in the second quarter of 2016 and €63.0 million in the first quarter of 2017.

Capital expenditures, including intangible assets, were €56.4 million in the second quarter of 2017, compared with €62.6 million in the second quarter of 2016 and €54.8 million in the first quarter of 2017.

Cash and cash equivalents were €49.2 million at 30 June 2017, compared with €115.9 million at year end 2016. Total borrowings, net of deferred revolving facility financing fees, were €777.7 million at 30 June 2017, compared with €735.0 million at year end 2016. On 9 March 2017, we entered into a €75.0 million senior secured revolving

## **Forward-looking Statements**

This communication contains forward-looking statements that involve risks and uncertainties. There can be no assurance that such statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such forward-looking statements. Factors that could cause actual results and future events to differ materially from Interxion's expectations include, but are not limited to, the difficulty of reducing operating expenses in the short term, the inability to utilise the capacity of newly planned data centres and data centre expansions, significant competition, the cost and supply of electrical power, data centre industry over-capacity, performance under service level agreements, certain other risks detailed herein and other risks described from time to time in Interxion's filings with the United States Securities and Exchange Commission (the "SEC").

Interxion does not assume any obligation to update the forward-looking information contained in this report.

## **Non-IFRS Financial Measures**

Included in these materials are certain non-IFRS financial measures, which are measures of our financial performance that are not calculated and presented in accordance with IFRS, within the meaning of applicable SEC rules. These measures are as follows: (i) EBITDA; (ii) Adjusted EBITDA; (iii) Recurring revenue; (iv) Revenue on an organic constant currency basis; (v) Adjusted net income; (vi) Adjusted basic earnings per share and (vii) Adjusted diluted earnings per share.

Other companies may present EBITDA, Adjusted EBITDA, Recurring revenue, Revenue on an organic constant currency basis, Adjusted net income, Adjusted basic earnings per share and Adjusted diluted earnings per share differently than we do. Each of these measures are not measures of financial performance under IFRS and should not be considered as an alternative to operating income or as a measure of liquidity or an alternative to Profit for the period attributable to shareholders (“net income”) as indicators of our operating performance or any other measure of performance implemented in accordance with IFRS.

## **EBITDA, Adjusted EBITDA, Recurring revenue and Revenue on an organic constant currency basis**

We define EBITDA as net income plus income tax expense, net finance expense, depreciation, amortisation and impairment of assets.

We define Adjusted EBITDA as EBITDA adjusted for the following items, which may occur in any period, and which management believes are not representative of our operating performance:

- Share-based payments – primarily the fair value at the date of grant to employees of equity awards, are recognised as an employee expense over the vesting period. We believe that this expense does not represent our operating performance.
- Income or expense related to the evaluation and execution of potential mergers or acquisitions (“M&A”) – under IFRS, gains and losses associated with M&A activity are recognised in the period in which such gains or losses are incurred. We exclude these

effects because we believe they are not reflective of our ongoing operating performance.

- Adjustments related to terminated and unused data centre sites – these gains and losses relate to historical leases entered into for certain brownfield sites, with the intention of developing data centres, which were never developed and for which management has no intention of developing into data centres. We believe the impact of gains and losses related to unused data centres are not reflective of our business activities and our on-going operating performance.

In certain circumstances, we may also adjust for other items that management believes are not representative of our current on-going performance. Examples include: adjustments for the cumulative effect of a change in accounting principle or estimate, impairment losses, litigation gains and losses or windfall gains and losses.

We define Recurring revenue as revenue incurred monthly from colocation, connectivity and associated power charges, office space, amortised set-up fees and certain recurring managed services (but excluding any ad hoc managed services) provided by us directly or through third parties, excluding rents received for the sublease of unused sites.

We believe EBITDA and Adjusted EBITDA and Recurring revenue provide useful supplemental information to investors regarding our on-going operational performance. These measures help us and our investors evaluate the on-going operating performance of the business after removing the impact of our capital structure (primarily interest expense) and our asset base (primarily depreciation and amortisation). Management believes that the presentation of Adjusted EBITDA, when combined with the primary IFRS presentation of net income, provides a more complete analysis of our operating performance. Management also believes the use of EBITDA and Adjusted EBITDA facilitates comparisons between us and other data centre operators (including other data centre operators that are REITs) and other infrastructure based businesses. EBITDA and Adjusted EBITDA are also relevant measures used in the financial covenants of our €100.0 million revolving credit facility, our €100.0 million senior secured revolving facility and our 6.00% Senior Secured Notes due 2020.

## Press Release, 2 August 2017

A reconciliation from net income to EBITDA and from EBITDA to Adjusted EBITDA is provided in the tables attached to this press release. EBITDA, Adjusted EBITDA and other key performance indicators may not be indicative of our historical results of operations, nor are they meant to be predictive of future results.

We believe that revenue growth is a key indicator of how a company is progressing from period to period and presenting organic constant currency information for revenue provides useful supplemental information to investors regarding our ongoing operational performance because it helps us and our investors evaluate the ongoing operating performance of the business after removing the impact of acquisitions and of currency exchange rates.

### **Adjusted net income, Adjusted basic earnings per share and Adjusted diluted earnings per share**

We define Adjusted net income as net income adjusted for the following items and the related income tax effect, which may occur in any period, and which management believes are not reflective of our operating performance:

- Income or expense related to the evaluation and execution of potential mergers or acquisitions (“M&A”) – under IFRS, gains and losses associated with M&A activity are recognised in the period in which such gains or losses are incurred. We exclude these effects because we believe they are not reflective of our on-going operating performance.
- Adjustments related to provisions – these adjustments are made for adjustments in provisions that are not reflective of the on-going operating performance of Interxion. These adjustments may include changes in provisions for onerous lease contracts.
- Adjustments related to capitalised interest – Under IFRS we are required to calculate and capitalise interest allocated to the investment in data centres and exclude it from net income. We believe that reversing the impact of capitalised interest provides information about the impact of the total interest costs and facilitates comparisons with other data centre operators.

In certain circumstances, we may also adjust for items that management believes are not representative of our current on-going performance. Examples include:

**Press Release, 2 August 2017**

adjustments for the cumulative effect of a change in accounting principle or estimate, impairment losses, litigation gains and losses or windfall gains and losses.

Management believe that the exclusion of certain items listed above, provides useful supplemental information to net income to aid investors in evaluating the operating performance of our business and comparing our operating performance with other data centre operators and infrastructure companies. We believe the presentation of Adjusted net income, when combined with net income (loss) prepared in accordance with IFRS is beneficial to a complete understanding of our performance. A reconciliation from reported net income to Adjusted net income is provided in the tables attached to this press release.

Adjusted basic earnings per share and Adjusted diluted earnings per share amounts are determined on Adjusted net income.

## Press Release, 2 August 2017

The company's outlook for 2017 included in this press release, includes a range for expected Adjusted EBITDA, a non-IFRS financial measure, which excludes items that management believes are not representative of our operating performance. These items include, but are not limited to, share-based payments, income or expense related to the evaluation and execution of potential mergers or acquisitions, adjustments related to terminated and unused data centre sites, and other significant items that currently cannot be predicted. The exact amount of these items is not currently determinable, but may be significant. Accordingly, the company is unable to provide equivalent reconciliations from the corresponding forward-looking IFRS measures to expected Adjusted EBITDA.

## Press Release, 2 August 2017

<sup>1</sup> Recurring revenue is revenue incurred from colocation and associated power charges, office space, amortised set-up fees, cross-connects and certain recurring managed services (but excluding any ad hoc managed services) provided by us directly or through third parties, excluding rents received for the sublease of unused sites.

<sup>2</sup> Adjusted net income (or 'Adjusted earnings') and Adjusted EBITDA are non-IFRS figures intended to adjust for certain items and are not measures of financial performance under IFRS. Complete definitions can be found in the "Non-IFRS Financial Measures" section in this press release. Reconciliations of net income to Adjusted EBITDA and net income to Adjusted net income can be found in the financial tables later in this press release.

<sup>3</sup> Capital expenditures, including intangible assets, represent payments to acquire property, plant, equipment and intangible assets, as recorded in the consolidated statement of cash flows as "Purchase of property, plant and equipment" and "Purchase of intangible assets", respectively.

<sup>4</sup> Equipped space and Revenue generating space (and other metrics derived from these measures) exclude Interxion Science Park, which was acquired on 24 February 2017.

<sup>5</sup> We present organic constant currency information to provide a framework for assessing how our underlying businesses performed excluding the effect of acquisitions and foreign currency rate fluctuations. For purposes of calculating Revenue on an organic constant currency basis, results from entities acquired during the current and comparison period are excluded. Also, current and comparative prior period results for entities reporting in currencies other than Euro are converted into Euro using the average exchange rates from the prior period rather than the actual exchange rates in effect during the current period. The reconciliation of total revenue growth to total revenue growth on an organic constant currency basis, is as follows:

<b>Three Months Ended 30 June 2017</b>	<b>Year-on-year</b>	<b>Sequential</b>
Reported total revenue growth	16%	6%
Add back: impact of foreign currency translation	1%	0%
Reverse: impact of acquired ISP business	(2%)	(1%)
Total revenue growth on an organic constant currency basis	<u>16%</u>	<u>5%</u>

Percentages may not add due to rounding

(1) "EBITDA" and "Adjusted EBITDA" are non-IFRS financial measures. See "Non-IFRS Financial Measures" for more information on these measures, including why we believe that these supplemental measures are useful, and the limitations on the use of these supplemental measures.

(2) "M&A transaction costs" are costs associated with the evaluation, diligence and conclusion or termination of merger or acquisition activity. These costs are included in "General and administrative costs". In the quarter ended 30 June 2017, M&A transaction costs included €0.6 million related to other activity including the evaluation of potential asset acquisitions.

(3) "Items related to sub-leases on unused data centre sites" represents the income on sub-lease of portions of unused data centre sites to third parties. This income is treated as "Other income".
