

West Drayton Data Centre

WEST LONDON CAMPUS

UNIT 1 AIRPORT GATE, BATH ROAD, MIDDLESEX UB7 0NA

Situated in West London, West Drayton is a premium colocation site within our [London Metro](#).

With its proximity to London's international airports and unique connectivity to our [Docklands Campus](#) & [City Campus](#), West Drayton is an ideal location for customers seeking a dual or resilient colocation strategy with all the benefits of a cost effective, highly connected data centre just 30km from the centre of London.

West Drayton is an interconnected data centre that provides fast and secure access to all the cloud on-ramps and carriers required to facilitate data flow and digital growth.

- Colocation in Cabinets, Cages and Private Rooms
- Connectivity to 195+ networks, carriers and internet exchanges, including LINX and LONAP
- Access to all public and private cloud providers
- Rapidly installed Cross Connects within and between data centres across London
- Easily accessible from Central London by road and public transport
- A convenient landing facility for international businesses – close to both Heathrow & Gatwick airports
- The highest levels of physical security including perimeter fencing
- Excellent user amenities

London Metro Connectivity

West Drayton is an interconnected part of the [London Metro](#) which connects eight of Interxion's colocation sites across the London Metropolitan area, enabling reliable connectivity direct to your partners, suppliers and other Interxion customers. Connect to The City data centres, as well as The Docklands, providing secure access to cloud on-ramps and geographically diverse options for back-up and disaster recovery.

Unlock your global IT strategy from London

Our global infrastructure solution, [PlatformDIGITAL®](#) enables businesses to interconnect global workflows from anywhere in the capital and across the world, fulfilling all connectivity needs quickly and efficiently. With access to over 700 connectivity providers, key hyperscale public clouds, local cloud providers, network density and interconnection services, customers are able to deploy their IT infrastructure in buildings and locations of their choice. All benefit from 99.999% uptime, implementation and service consistency across the world plus the highest levels of physical and network security.

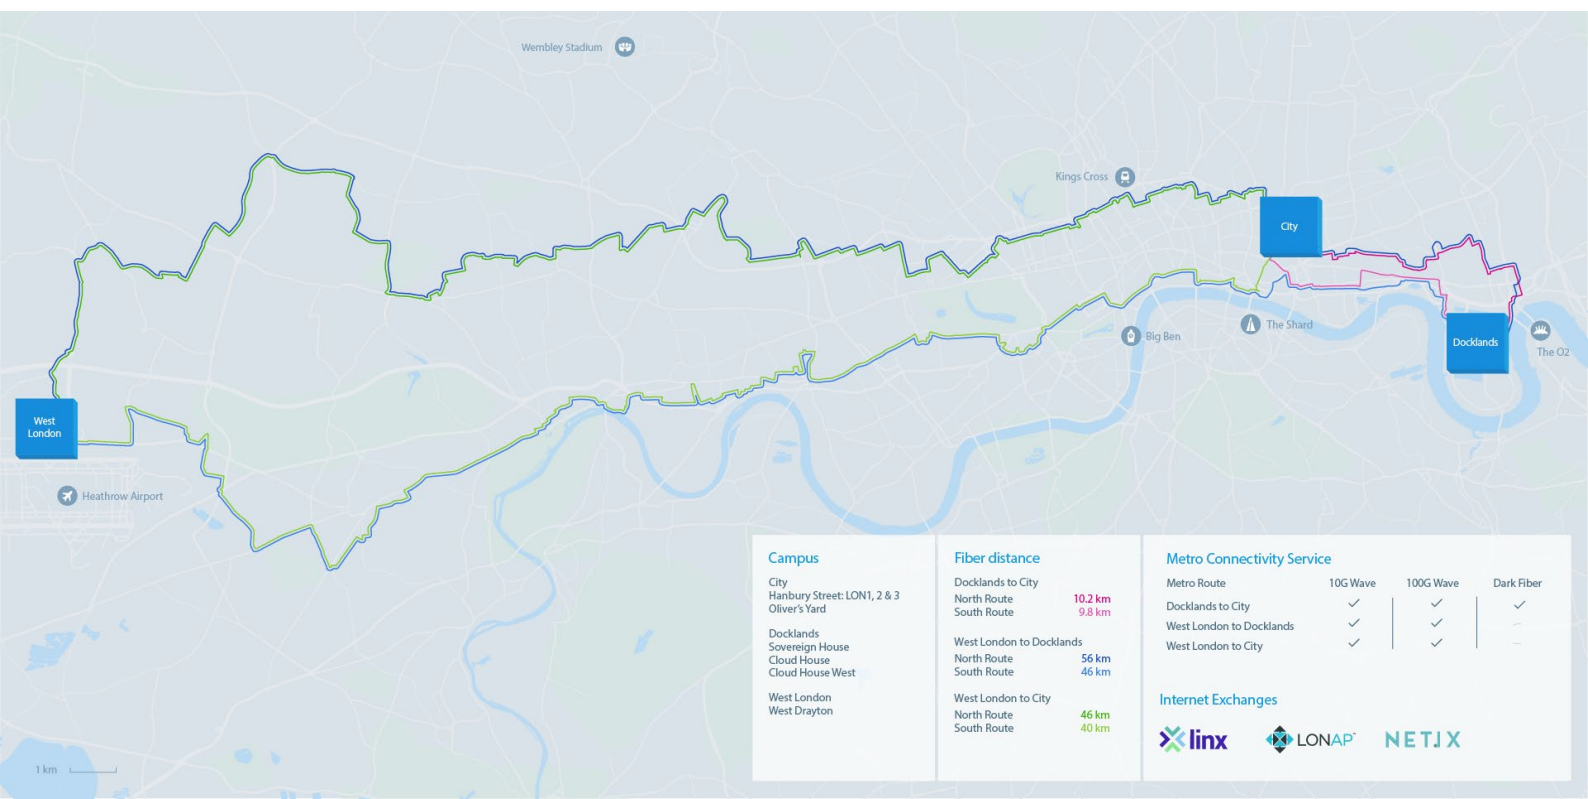

About Interxion: A Digital Realty Company

Interxion: A Digital Realty Company is a leading provider of carrier- and cloud-neutral data centre services across EMEA. With more than 700 connectivity providers in over 100 data centres across 13 European countries, Interxion provides communities of connectivity, cloud and content hubs. As part of Digital Realty, customers now have access to 49 metros across six continents.
