

# Sovereign House North London

## About

Located within the heart of the London Docklands area, Digital Realty's Sovereign House North forms part of Digital Docklands and is within easy access of both Canary Wharf and the City of London. The facility sits in close proximity to the city's many transport links. The gross size of Sovereign House North is 1,630m<sup>2</sup> (25,360ft<sup>2</sup>) spread over four floors. The facility is designed to be a major carrier-neutral and fibre-rich hub providing access to key telecommunication providers, internet service providers (ISPs) and internet exchange providers (IXPs).

## Public Transport

### From South Quay (DLR)

There are two exits out of the station, one via escalators and the other via stairs. If exiting via the escalators, head east along Marsh Wall past the second station exit until you get to a pedestrian crossing. Cross the road and turn right, there is a sign next to the crossing pointing towards Jack Dash House. Continue straight for approximately 365m past Meridian Place. Take the first left into Lord Amory Way, walk to the end and turn right. Sovereign House North is the middle building on the left.

If exiting the station via the stairs, cross the road and turn right, there will be a sign next to crossing pointing towards Jack Dash House. Continue straight for approximately 365m past Meridian Place. Take the first left into Lord Amory Way, walk to the end and turn right. Digital Realty Sovereign House North is the middle building on the left.

### From Canary Wharf (Jubilee Line)

Exit the station and turn left. Cross the road and walk through the Jubilee Place Shops & Restaurants, which will bring you to a footbridge. Cross over the bridge, turn left then immediately right – you will see signs for Harbour Exchange Square. Turn left onto Marsh Wall (Hilton Hotel is on the corner) and walk approximately 365m, past South Quay Plaza, South Quay DLR station (on the opposite side of the road) and Meridian place. Turn left into Lord Amory Way and walk to the end and turn right. Sovereign House North is the middle building on the left.

## By Road

### From City Centre

Exit City Centre on the Great Eastern Way (A1202). At this point, the road name changes to Commercial Street (A1202). Continue along this road until the turning for the A11. Turn left onto Whitechapel High Street (A11) and then bear right onto Commercial Road (A13). After about 2.5 miles, turn right onto Cotton Street (A1206). At the Aspen Way roundabout, take the second exit onto the Prestons Road (A1206). The road name then changes to Manchester Road (A1206). At the next roundabout, take the third exit onto Marsh Wall, take the second turning on the right to Lord Amory Way, follow the road to the end, which will turn right. Sovereign House North is the middle building on the left.

### Parking

Car parking on Digital Realty property is strictly controlled and monitored. Parking is allocated on a first come first served basis. When necessary, users of the car parks must follow instructions from Security. Digital Realty cannot accept responsibility for any items that are lost, stolen, damaged or destroyed in the car parks. Digital Realty expects all customers to use the car parks in a safe and considerate manner.

# Data Centre Benefits & Differentiators

## Highly-connected, premium data centre space

### Facility Specifications

#### Facility

- Gross size of data centre 2,356m<sup>2</sup> (25,360ft<sup>2</sup>)
- Net customer space 1,630m<sup>2</sup> (17,545ft<sup>2</sup>)
- Building type: converted office
- Building tenure: leasehold
- 4x data floors
- 4x IT zones
- Maximum floor load capacity 500kg/m<sup>2</sup>
- Maximum raised access floor height 300mm
- Raised floor to false ceiling height 3.2m

#### Power

- 2x independent supplies into building – from two substations
- Total incoming feed capacity 6MVA
- Diverse power route
- Generator fuel at full load 48 hours
- UPS type – static
- UPS autonomy – 10 minutes
- UPS capacity – 1,440kW
- N+1 Redundancy
- Generator redundancy – N+1
- 3.6MVA Generator capacity

#### Connectivity

- The facility is designed to be a major carrier-neutral and fibre-rich hub providing access to major carriers, ISPs and IXPs
- 2x diverse entry points into building
- 2x meet me rooms (MMR)
- 30x connectivity providers on site

#### Cooling

- DX cooling system
- 2.97MW Maximum cooling capacity
- N+1 cooling redundancy
- CCU cooling

#### Security

- Proximity access card security system
- 24x7 onsite security

#### Fire Detection & Suppression

- High sensitivity smoke detection system
- FM200 Fire suppression system
