

Introducing LON3

11 Hanbury Street, London E1 6QR

Join central London's best-connected data centre campus.

LON3 is the latest addition to Interxion's uniquely located central London campus. It introduces 1,800m2 of data centre space to help even more businesses capitalise on the capital.

Join one of the most popular data centre locations in Europe, strategically positioned between the Square Mile and Tech City. Be confident with state-of-the-art resilience and security built to exacting standards for unbeatable availability and performance.

Access more than 90 connectivity providers, eight major CDNs and thriving customer communities that span every sector, from Financial Services to Digital Media. If your business wants to connect, exchange and transform, choose LON3.

Innovators interconnect at Interxion.

Enhance competitiveness with the right infrastructure, in the right place.

With London's 7.5 million broadband subscribers and more than 16,000 businesses on your door step, you'll have the physical proximity to minimise latency and deliver outstanding end-user performance. If your business is already based in the capital, LON3 will also slash the time it takes engineers to access and maintain your business-critical infrastructure.

While other data centres may offer an attractive London postcode, few can match LON3's wealth of interconnection opportunities - including direct access to major cloud platforms, BT's IP network and the UK's largest Internet Exchange, LINX.

Our London campus attracts a diverse range of businesses, making it easy to interconnect with industry peers, partners and suppliers to drive differentiation and find competitive advantage in today's crowded digital marketplace.

Join LON3 to build your perfect business platform. With a highly connected data centre in the heart of London, you won't just be able to meet the requirements of today, you'll be ready to capitalise on the full potential of tomorrow.

Connect

The most connected data centre campus in central London.

- Over 90 Connectivity Providers
- Home to LINX and LONAP
- Fully diverse location from the Docklands

Exchange

Interconnect directly with your partners, suppliers and cloud platforms.

- Interconnect to over 350 businesses colocated on campus
- Interconnect to minimise networking costs
- Interconnect to improve performance

Transform

The ideal environment for your business, today and tomorrow.

- Private network access to Azure, AWS, Oracle Cloud Infrastructure, IBM Cloud and Google Cloud via Cloud Connect
- Build the ideal hybrid cloud environment for your business

About Interxion

Interxion (NYSE: INXN) is a leading provider of carrier and cloud-neutral colocation data centre services in Europe, serving a wide range of customers through over 50 data centres in 11 European countries. Interxion's uniformly designed, energy efficient data centres offer customers extensive security and uptime for their mission-critical applications. With over 700 connectivity providers, 21 European Internet exchanges, and most leading cloud and digital media platforms across its footprint, Interxion has created connectivity, cloud, content and finance hubs that foster growing customer communities of interest.
