200+

banks, trading & financial
services companies.

London Metro Connectivity

Hanbury Street is an interconnected part of the [London Metro](#) which connects eight of Interxion's colocation sites across the London Metropolitan area, enabling reliable connectivity direct to your partners, suppliers and other Interxion customers. Connect to the rest of The City data centres, as well as The Docklands and West London, providing secure access to cloud on-ramps and geographically diverse options for backup and disaster recovery.

Unlock your global IT strategy from London

Our global infrastructure solution, [PlatformDIGITAL®](#) enables businesses to interconnect global workflows from anywhere in the world, fulfilling their connectivity needs quickly and efficiently. With access to over 700 connectivity providers, key hyperscale public clouds, local cloud providers, network density and interconnection services customers are able to deploy their IT infrastructure in the buildings and locations of their choice. All benefit from 99.999% uptime, implementation and service consistency across the world and the highest level of physical and network security.

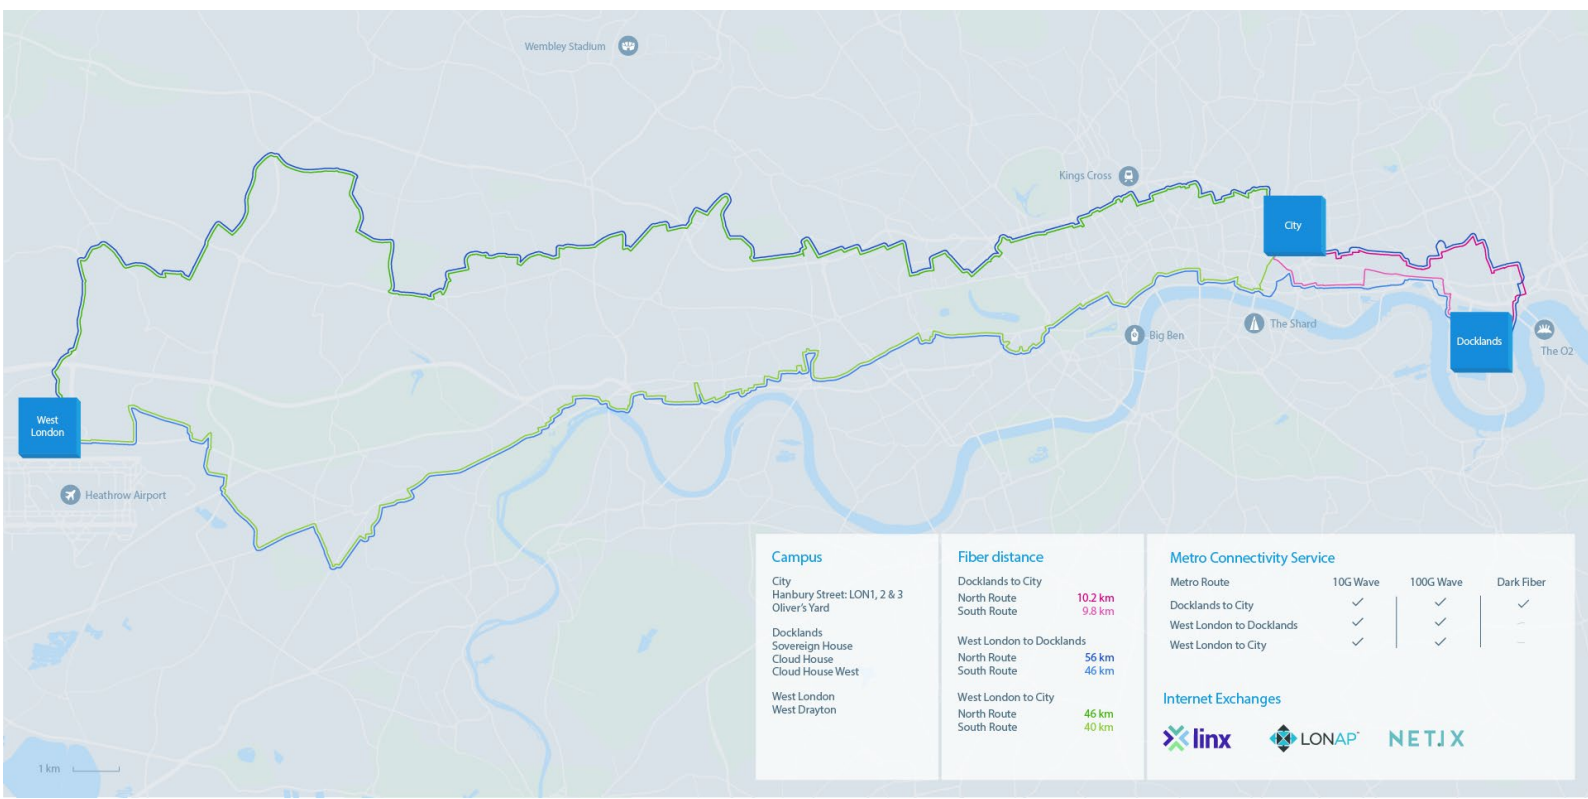

About Interxion: A Digital Realty Company

Interxion: A Digital Realty Company is a leading provider of carrier- and cloud-neutral data centre services across EMEA. With more than 700 connectivity providers in over 100 data centres across 13 European countries, Interxion provides communities of connectivity, cloud and content hubs. As part of Digital Realty, customers now have access to 49 metros across six continents.
