

The Ascenty logo features the word "Ascenty" in a white, italicized sans-serif font. A yellow and orange swoosh is positioned above the letter 'y'. The logo is set against a background of blue and orange wavy lines that sweep across the top of the image.

DIGITAL REALTY

A Digital Realty and Brookfield Company

The background of the entire image is an aerial view of the Paulinia Data Center. It shows a large, white, rectangular industrial building with a corrugated metal roof. In the foreground, there is a paved road and a grassy area. A fence runs along the side of the building, and several large, white, rectangular units are visible on the roof. The overall scene is bright and clear, with a mix of green grass, grey pavement, and white building walls.

**PAULÍNIA DATA CENTER**

# Paulínia Data Center

Home to one of the largest petrochemical complexes in Latin America, Paulínia plays a key role in the local economy. This strategic location was also chosen to house the Paulínia Data Center.

The site is located on the main highway cutting across the city, providing quick access to São Paulo and other nearby cities with high storage capacity, energy and redundancy. An investment fit to match the economic relevance of one of the most dynamic regions in Brazil.

## About Ascenty

Ascenty, a Digital Realty and Brookfield company, is the largest connectivity and data center service provider in Latin America, currently managing 27 data centers in operation and/or construction in Brazil, Chile and Mexico, interconnected by 5,000 km of proprietary fiber-optic network.

The company was established in 2010 and builds and operates world-class data centers serving the world's largest cloud and technology providers, as well as other customers in the finance, retail, industrial, healthcare and service industries. To support the company's expansion, Ascenty is backed by its shareholders which include Brookfield Infrastructure Partners, a Canadian asset management company and Digital Realty, the world's largest data centers provider with 290 data centers located in North America, Europe, Latin America, Asia and Australia.
