

## Brussels' newest data centre offers an ultra-secure, scalable infrastructure with best-in-class connectivity

Interxion's newest Brussels data centre is located just 5 minutes from Brussels Airport. The state-of-the-art BRU4 campus offers 6,700 m2 of space and access to over 100 carriers/ISPs and many cloud providers.

Rely on one of the most secure and flexible facilities for your mission-critical applications. Benefit from the highest security standards and latest technology to ensure availability and performance.

BRU4 was designed with a focus on energy saving and modular architecture.

Cost-effective air conditioning, advanced fire and water detection systems and a multi-level security concept protected by five physical security barriers as well as the most advanced alarm and monitoring systems make BRU4 the most secure data centre in Belgium.

### Innovative companies interconnect at Interxion

**Increase your competitiveness with the right infrastructure in the right place.**

Our Brussels campus attracts a wide range of businesses and provides extraordinary flexibility to meet your growing space and power requirements. BRU4 offers a number of ways to connect with the outside world. This includes direct access to major cloud platforms such as AWS, Google, MS Azure, Oracle, Alibaba, Salesforce, City Cloud and IBM, a variety of local clouds, and free connections to the Belgian National Internet eXchange BNIX.

Interxion Brussels is the only facility in Belgium that hosts the Cloud network nodes (PoP) of Microsoft Azure, AWS and Google Cloud, providing the most direct access to these clouds?

#### BRU4 – At a glance

- Brussels – located in the heart of Europe
- 6.700 m2 customer space
- 13,6 MW power (BRU Campus 22 MW)
- 99.999% availability SLA
- Access to 100+ Carriers/ISPs
- 5 physical security levels
- Free direct access to BNIX
- 100% renewable energy
- 24/7 technical support
- Cloud-PoPs of AWS, MS Azure & Google Cloud
- Nvidia DGX-ready certified

## BRU4: Technical specifications

### About Interxion: A Digital Realty Company

Interxion: A Digital Realty Company, is a leading provider of carrier- and cloud neutral data centre services across EMEA. With more than 700 connectivity providers in over 100 data centres across 11 European countries, Interxion provides communities of connectivity, cloud and content hubs. As part of Digital Realty, customers now have access to 47 metros across six continents.
